

To start using Beacon as a **WCC u3a member**, you will need to have first successfully accessed your account. Click [here](#) for further support.

On successfully logging in, members will given a few options depending on their renewal status. Most commonly you will see this screen (occasionally with an extra menu option)

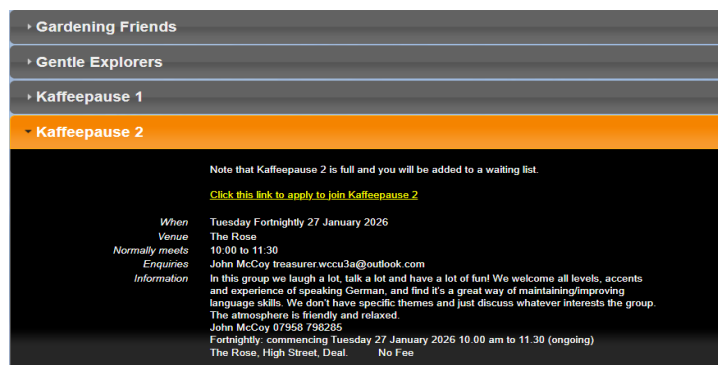

To renew your membership

Click the “Renew your membership” option and confirm whether you wish to claim Gift Aid. (We would strongly encourage all eligible members to do so). Then select the “Make Payment” option to be taken to PayPal systems where you can pay via a PayPal account, or by clicking on the icon looking like the one below to pay with a bank card as a “guest” without needing a PayPal account.

To join a u3a group

Click the “White Cliffs Country u3a groups” option to be taken to a screen where you can view the different groups available. Click on the triangle icon to the left of each group to show full group information on who to contact, as well as the option to join the group or (sometimes) to join a waiting list.

To update your personal details

Click the appropriate option, make any changes and ensure you press the “Update personal Details” button as per screenshot below – otherwise your changes will not be saved.

Still needing help?

If you are unable to access the information as you need, please contact *our IT & Beacon Support* by clicking [here](#)
